

Know the Truth

Know the truth and it will set you free. Ignore the truth and you invite a rude awakening. Distort the truth to injure another and your misdeed will come back to you with a vengeance.

On the morning of Thursday, October 21st, 2010, Attorney Stephen Stubbs made the front page of the *Review* with allegations of unethical conduct against Linda Strickland. At 5 p.m. that day Stubbs visited City Hall for the purpose of getting a Boulder City license for his Clark County business, Tax Law Solutions, LLC.

On Thursday, February 10th, 2011, Stubbs again made the front page of the *Review* with the threat of a law suit against the Stricklands and allegations that their Boulder City business was fraudulently licensed. As of that date the Clark County license for Tax Law Solutions had been revoked for non-payment of fees. On Thursday, February 17th, 2011, when Mr. Knightly's editorial defending the latest Stubbs article appeared, Boulder City acted to suspend Tax Law Solutions's local business license.

Like Stubbs, Charles E. Coombes has repeatedly attacked Linda Strickland. In spring of 2008 Coombes donated \$2,500.00 to the recall against Chandler and Strickland. It failed. Since then Coombes has written letters to local newspapers and purchased advertising space to further his vendetta. For all the time, effort and money Coombes has spent making allegations I was amazed to learn that he was not even registered to vote in Boulder City until September 28th, 2010.

I support Linda Strickland based upon her record. I will be voting for her based upon provable facts. Linda has stood up to these two bullies. She also stood up for our eight neighbors who have been bullied by the City in three frivolous law suits. I respect that.

Dick Farmer

Editor's Note: *Mr. Coombes has stated he is a resident of Boulder City, Clark County, Nevada and a registered voter. He is also the Registered Agent for two corporations in Florida. Florida statues require Registered Agents to be a resident of Florida with office hours from 10 am to 2 pm weekdays. Mr. Coombes needs to explain this discrepancy to the state of Florida.*
